

Position Announcement

DATC / DLSC Emergency Medical Technician - Intermediate

Danville Life Saving Crew is seeking candidates for its EMT – Advanced responder. An EMT–Intermediate provides basic emergency treatment for respiratory, trauma and cardiac emergencies, as well as obstructed airways, and are trained to administer some medications, as well as intravenous fluids. The EMT-I always works in collaboration with and under the direction of other crew members and the incident command. The EMT-Intermediate will:

- Assume responsibility for advanced life support pre-hospital patient care; including supervision and care of patients utilizing advanced clinical skills and tools such as sphygmomanometers, stethoscopes, monitors, defibrillators, IV therapy, endotracheal intubation, numerous medications, and other associated tasks in accordance with medical protocol.
- Perform independently in situations involving basic life support activities
- Direct others, while rendering patient care, including but not limited to EMRs and EMTs.
- Work seamlessly with both career and volunteer personnel.
- Safely operate emergency ambulances, crash trucks, and other response vehicles in emergency response situations.
- Follow all protocols of the Western VA EMS Council.
- Provide training to basic life support personnel, EMRs and EMTs in training.
- Assume initial command of scenes involving multiple patients and/or complex incidents.
- Attend training classes and perform CBS (Competency Based Skills) to demonstrate proficiency in required skills per the Western VA EMS Council Protocols.
- Daily assignments shall be based on call volume and may be changed without prior notice being given.
- Adhere to all other agency policies, procedures, and SOGs found in the bylaws or Personnel Handbook.
